The Guanghua Engineering Science and Technology Award

The Guanghua Engineering Science and Technology Award is administered by the Chinese Academy of Engineering. It has been presented to Chinese engineering science and technology experts every two years since 1996 to commend their important contributions and outstanding achievements in the fields of engineering science and technology, and engineering management. Considered the highest award in the Chinese engineering industry, the award covers nine professional fields: Mechanical and Transportation Engineering; Information and Electronic Engineering; Chemical, Metallurgical and Materials Engineering; Energy and Mineral Engineering; Civil, Water Conservancy and Construction Engineering; Environment and Textile Engineering; Agriculture; Medicine and Health; and Engineering Management. Since its inception, 423 individuals and one academic group have been honoured across 16 selection cycles.
