### **About James Dyson Award**

The James Dyson Award forms part of a wider commitment by Sir James Dyson, to demonstrate the power of engineers to change the world. The Dyson Institute of Engineering and Technology, the James Dyson Foundation and James Dyson Award encourage aspiring engineers, to apply their knowledge and discover new ways to improve lives through technology. To date, James Dyson has contributed over £140m to boundary-breaking concepts in education and other charitable causes. The James Dyson Award has supported over 300 inventions with prize money, and is run by the James Dyson Foundation, an engineering education charity funded by Dyson profits.
