About the Corporate Innovation Index (CII) project

Launched by the Asia-Pacific Institute of Business (APIB) at The Chinese University of Hong Kong (CUHK) Business School, the CII aims to enhance innovation within both large corporations and small and medium-sized enterprises (SMEs) in Hong Kong. Funded by the Innovation and Technology Commission (ITC) of the Hong Kong government since 2021, the CII initiative has been pivotal in fostering an innovation-driven economy.

As the CII project has grown, it has fostered a collaborative ecosystem among academia, industry and government, with a special focus on both technological and non-technological innovation. The CII has established a collaborative framework with The Hong Kong General Chamber of Commerce as a strategic partner, focusing on both technological and non-technological innovation.
