Donor Information

Dr Elizabeth K S Law

Dr Law is an outstanding entrepreneur and philanthropist, long committed to public welfare, with a particular focus on education. Her generous HK\$100 million donation sponsors Project E, supporting CCC in creating a high-quality campus environment and making a significant contribution to whole-person education.

The Council for World Mission/Nethersole Fund

The Council for World Mission/Nethersole Fund is dedicated to promoting the Christian spirit of universal love and sharing by funding education. The Fund's generous HK\$50 million pledge supports Project E in advancing campus development and promotes a Christian spirit within the CUHK campus and the wider community.

About Chung Chi College

Chung Chi College was founded in October 1951 by representatives of Protestant churches in Hong Kong and was incorporated as one of the three foundation Colleges of CUHK in 1963. CCC continues the long, rich educational tradition of the 13 former Christian Colleges and Universities in the Chinese Mainland, bridging Eastern and Western cultures and promoting the pursuit of truth and scholarship.

Over the more than 70 years since its founding, CCC has been dedicated to promoting whole-person education and has nurtured over 30,000 Chung Chi students. Facing the changes of a new era, CCC upholds the motto “In Pursuit of Excellence”, developing students’ abilities to achieve excellence in academics and sports, excelling in their studies while maintaining good physical health. CCC also fosters the cultivation of virtue and talent, encouraging ethical conduct and sound values. By nurturing spiritual enhancement, CCC develops students’ talents and enhances their spiritual intelligence, allowing them to understand the true meaning of life and the pursuit of excellence.

About Project E Twin-Building

Project E Twin-Building has a total construction floor area of about 12,000 square metres. The two blocks both feature sky gardens, adding green space to the campus. With its exceptional location and diverse facilities, Project E will become a new landmark for the University and an important exchange platform that brings together talents from various sectors, presenting a fresh new look for the campus. The conception of the project began in 2022, the foundation stone laying ceremony was held in October 2024 and piling work started earlier this year.
